To Whom It May Concern

As a Property Manager I only allow licensed electrical contractors do any electrical work on the properties I manage. I am fortunate I found John Doerksen. John is very easy to work with. Once at the job, John gets right to work and in my observations; he really knows what he is doing when troubleshooting and makes every move count. He wastes no time; therefore, making all the bills very reasonable. I recommend John to anyone I know who is need of an electrician.

Sincerely,

A handwritten signature in blue ink that reads "John Hunt".
